

Area News - German

What have we been up to?

Year 1 German students have just started a unit on art and architecture in German speaking countries. In the first lesson we looked at some examples of German art through the ages, particularly focussing on Expressionism. Students appreciated pictures by German artists such as Caspar David Friedrich and Otto Dix. At the end of the lesson students tried out their artistic skills by describing pictures to a partner in German, who had to draw the picture without seeing it. There were some real masterpieces!
