

## Area News – Health & Social Care

What have we been up to?

So far this year we have enjoyed hosting a party for local service users. 80 adults who use local day services joined us for a disco.

We have also visited local care homes where we have run activities with residents including quizzes, craft activities and bingo.

We have also practiced 'donning and doffing' Personal Protective Equipment and 12 step hand washing technique to prevent the spread of infection when working in a clinical environment.

We have been exploring how local services meet the needs of individuals with a range of diverse needs in a non-discriminatory and person-centred manner. We have also been learning about the roles and responsibilities of Health and Social Care practitioners in safeguarding those in their care.

Something you can look forward to ...

In the Summer term we are inviting local health and social care professionals into college to deliver workshops to our students. This will include careers advice and guidance along with information about the different roles available in the Health and Social Care sector.

Each year we organise a Summer Fete where students plan and run fun activities for local service users including 'hook a duck' and 'play your cards right' along with team sports and a picnic.
