

## Area News - Tutors

What have we been up to?

This week the tutor team has been highlighting the different Careers events that are taking place at the college over the next two months or so to help Year 1 with their decision making for what they want to do when they leave college in just fifteen month's time! We have also launched applications for students to become members of the Student Executive here at the college, where successful candidates will not only get valuable experience in applying for positions but more excitingly will get a say in how different parts of the college is run next year!

Recently in lessons we have been ...

Next week, kicking off the Careers events that the college are running over March and April, is the Year 1 Careers Progression Day. Students will be off timetable for a day and instead will come into college for a morning or afternoon to focus specifically on finding about what their options are once they leave. There's a talk by Richard Jones, head of Careers, to let students know what they can do after their A-Levels/BTECs. There's also going to be a talk by former Huish students, who'll explain what it was like to apply for and study either Degree Apprenticeships or traditional degrees. Finally, there'll also be a session run by the tutor team supporting students with writing tricky things like cover letters and personal statements.
